

RISE lista över smörjfetter som uppfyller miljöegenskaper enligt SS 15 54 70**RISE list of lubricating grease which meet environmental requirements according to SS 15 54 70****Version: February 2025**

Förändringar som tillkommit efter föregående lista är markerade med **FETSTIL**.

Smörjfetter kan listas som miljöanpassade klass B eller D. Skillnaden mellan dessa framgår av standarden. Vilken klass som avses ska enligt standarden framgå av produktens beteckning och anges ej i listan.

Changes that have been included after edition of the previous list are marked with **BOLD TYPE**.

Lubricating greases can be listed according to environmentally acceptable class B or D. The difference between the two classes is described in the standard. Which class the product fulfils should according to the standard be shown in the products designation and is not stated below.
